## Mreža Global Classroom

Mreža Globalna učilnica

LABOUR-INT III spodbuja večplastne poti vključevanja migrantov in beguncev v sodelovanju z različnimi deležniki po vsej Evropski uniji. Omogoča izobraževanje, usposabljanje in zaposlovanje ter nudi podporo migrantom od njihovega prihoda do vključitve na trg dela.

V procesu vključevanja državljanov tretjih držav si prizadeva izboljšati njihove zaposlitvene možnosti. Temelji na sodelovanju in dialogu med različnimi oblikovalci politik, javnimi službami, delodajalci, sindikati in civilno družbo.

## Global Classroom Network

LABOUR-INT III promotes multi-layered pathways for the integration of migrants and refugees. It provides education, training and employment in cooperation with multiple stakeholders across the European Union, supporting migrants from initial arrival to integration in the workplace.

It aims to improve the employment opportunities of third-country nationals as an integral part of their integration process. It is based on cooperation and dialogue among various policymakers, public services, employers, trade unions and civil society.

Please, scan the QR code on the poster as soon as possible.

It might be worth it!
